FOR PRESIDENT WILLIAM H. TAFT
FOR VICE-PRESIDENT JAMES S. SHERMAN

EDITORIAL COMMENT.

SOME DARNED POOR ADVICE.

The Tonopah Miner of yesterday, after proceeding to publish a roast against Nye county's Democratic sheriff of what it designates as expensive administration, proceeds under the head of "A Democratic Legislature Is Most Essential" to tell the dear voters of Nye county why it is necessary that a Democratic legislature should be elected.

The author of the last named article is either not familiar with the history of the Democratic party in this state for the last twelve years, or he intentionally attempts to mislead the people by a lot of blatant utterances, none of which have any foundation in fact. In 1907 the Democrats had full control of both houses of the legislature, inasmuch as Mr. Brosmier, the senator from Esmeralda county was confined to his bed during the entire session and unable to represent his county or his party in that body. The history of that legislature shows an increase in the salary of every state officer; the addition of clerks and stenographers to each state office; the raising of the salary of nearly every county officer in the state—in fact, the money thus legislated out of the people's pockets by this inefficient Democratic legislature amounts to many, many thousands of dollars annually.

Take Esmeralda county for an example, which was governed entirely by the Democratic party, and ask yourself if the party in that county was able to administer its affairs. If it was, why did a Democratic governor call an extra session of the legislature early in this year at an expense to the state of \$30,000 or \$40,000? Why did a Democratic legislature at that extraordinary session pass a state police bill, taking from the people another \$150,000? Is the Miner consistent when upon one page it asks the people to defeat a Democratic candidate on account of his alleged extravagance, and upon the very next page tells the people that they will not be saved unless they elect a Democratic legislature? If a Democratic administration in Esmeralda county was unable to enforce the laws and govern the people of that county, why would a Democratic legislature from Nye county be so extraordinarily efficient, and why should the people fall over themselves electing another Democratic legislature throughout the state to further deplete the finances of the state and burden its tax payers?

We submit these questions to the intelligent voter and ask him to answer them at the polls. If he is in favor of further state and county extravagance, of further misrule and extravagant administration of county and state affairs, let him vote the Democratic ticket. If on the contrary, he favors an honest, fair and honorably righteous, equitable, just administration of the law in county and state affairs, let him vote the Republican ticket, particularly, the legislative ticket.

It is unnecessary in view of the history of the last mentioned party to state that it is the party of acts and deeds, and not the party of promises and declarations. We submit these questions to the voter of this county with a firm belief that they cannot, in view of the evidence that they have before them, fail to elect a Republican legislative ticket, and Republican state and county officers throughout.

The Democratic party in the state of Nevada has been weighed in the balance and found wanting! Wanting, more officers, more of the people's money to squander upon its indigent class of office seekers, wanting more stenographers, more clerks, more officials to assess for the purpose of raising the campaign fund to further delude and further misrepresent the people, wanting to amend its police bill and apologize for its inefficiency.

FRED BERRY IS IN THE RACE FOR THE ASSEMBLY.

Fred Berry is in line for the assembly from Nye county on the regular Republican ticket and firmly believes he can win.

He is a westerner, born and bred, and with his well recognized mental capabilities added to a splendid understanding of western ideas and needs generally and Nevada's needs in particular should make a most desirable legislator. He is a native of western Wyoming and received his early education in Ogden, Utah, where his family is widely and favorably known. In 1895 he entered Stanford University and after taking prominent part in student affairs received his degree in the law school of that institution in 1899. For three years after his graduation he was engaged actively in business with one of the large mercantile concerns of San Francisco and finally entered upon the active practice of his profession in 1902. He has made Nevada his home since 1905 and is one of her staunch citizens.

EVIDENCE OF REPUBLICAN VICTORY IN THE STATE.

The Bonanza has received advices conclusively proving previous assertions that this state will surely be in the Republican column. The campaign work is steadily progressing and all reports indicate a Republican landslide. Hugh H. Brown, candidate for judge of the supreme court and others working throughout the state are meeting with tremendous success everywhere and the welcome tendered these ardent workers in the Republican cause, is indeed more than gratifying.

NEW FALL WAISTS

We have just received a magnificent line of new Fall Waists in all the latest materials and styles. We have them in

LINENS - MADRAS - NUN'S VEILING
TAFFETAS - MESSALINES

Our assortment comprises the very latest New York styles, and we are showing them in prices as follows:

County Auditor and Recorder.
C. A. RICHARDS
Public Administrator.
M. M. BRICK
County Commissioner (long term).
W. T. CUDDY
County Commissioner (short term).
THOMAS WILSON

GROWTH OF WEALTH PER CAPITA.

Doctrine that the Poor Are Growing Poorer Shown to Be False.

(From the Los Angeles Times.)

In 1820 the savings banks of the United States held \$1,138,576. This was a poor country then compared with now. The amount was only an average of 12 cents for the population of that time. That amount of average economy was very small.

Now the people of this country have \$3,900,878,945 in savings banks. This is an average for the whole population of this time of over \$42. The actual depositors have an average of \$125 to their credit. In 1820 only 8,635 persons in the country were rich enough to have a savings bank account. Now there are 8,888,841.

When James Buchanan, the last Democratic President in a long line, went into office, there was about \$100,000,000 in the savings banks of the United States. By 1870, after fighting out the great war, the people, under Republican rule for twenty years, had \$550,000,000 in the savings banks. When the next Democratic President took his seat in 1883, the savings of the people had passed the billion point. By 1898 the savings had doubled again.

So there it is. In 1820 there were only about 8,000 people rich enough to have a savings bank account. Now there are over 8,000,000. In 1820 the savings were 12 cents per capita; now they are over \$42.

That the poor grow poorer and the rich richer in this country is as true as any other Populist notion.

Byran.

He talks in the morning and talks in the night.
He talks when he's wrong and he talks when he's right.
He talks in the office and talks in the hall.
He talks in the church and he talks at the hall.
He talks to the Senate and talks to the House.
He talks to the people as poor common sense.
He talks to the press and he talks to the crowd.
He talks and he talks with a voice long and loud.
Like an old chapter mill he'll sound to the end.
And the disappointed for justice and friend.
—John A. Joyce in Baltimore American.

Conversion on Taft.

I hope and believe that all far-sighted citizens who wish to see this country prosperous in material things will support Mr. Taft, but above all I ask for support for him because he stands for the moral uplift of the nation, because his deeds have made good his words, and because the policies to which he is committed are of immeasurable consequence alike to the honor and interest of the whole American people.

PACIFIC FLEET STILL IS TOWING TORPEDO BOATS

HONOLULU, Oct. 17.—The Pacific cruiser fleet on leaving Honolulu returning to the Pacific coast, will sail directly to Magdalena bay, cruising thence to Panama, the Gallapagos islands, Callao, Conquimbo and Talcahuano, visiting these ports in the order named. The torpedo flotilla will make the entire trip towed by the cruisers.

DRUNKENNESS IS MORE DEADLY THAN PHTHISIS

LOUISVILLE, Oct. 17.—In a paper read at the annual convention here today of the Mississippi Valley Medical association, Dr. C. L. Crothers, superintendent of the Walnut Lodge hospital, Hartford, Connecticut, contends that inebriety was a far more fatal disease than consumption and was more widely spread.

BUSINESS BETTER ON STRENGTH OF TAFT'S ELECTION

PHILADELPHIA (Pa.), Oct. 17, for the election.

The market this week has been strengthened by heavy operations on the long side by important interests who have facilities for knowing the political situation with a greater degree of accuracy than some authorities who are credited with having definite information on most vital subjects. This recent display of confidence in a Republican victory is growing and, naturally, is being reflected in the market by the placing of new orders which, at one time during the recent past, were withheld to avoid being wedged in a reaction that might have been caused by a political scare. Again the sun is shining and we are given to understand that the situation, from a Republican viewpoint, is that they are now ready

The outlook has been in doubt very long. Even as late as last week it was dubious. These are the real factors in the recent rise and activity in the face of the war excitement abroad, which brought about heavy liquidation for foreign account, reflecting the uneasiness felt in the principal European markets over the disturbances in the Balkans.

This increased confidence regarding the apparent success of Mr. Taft has also been made evident in improved business in various lines of trade, and, in consequence, a cheerful feeling as to the future prevails. Several of the larger jobbing houses on Market street state that the outlook for business is brighter, and several report that they have 75 per

cent of their salesmen on the road. Reports coming from these men show a marked improvement in all sections of the country as far west as the Mississippi, and as far south as Jacksonville. The middle and extreme western states show a mild improvement in contrast, but orders from those sections have increased, but are not as large as usual.

FRED DORR IS AGAIN ARRESTED

(By Associated Press.)

LOS ANGELES, Oct. 17.—Fred Dorra, the stock broker of this and other cities, who was arrested in San Francisco recently on a charge of embezzlement, was tonight arrested here on a charge of embezzlement made by W. T. Coatsworth of this city. He was later released on bonds of \$10,000.
